

IBIZ FMCG Business Solution

Take Your Performance to the Next Level

A Proven Solution for FMCG Businesses

The Fast Moving Consumer Goods (FMCG) sector has characteristics of forming extensive distribution network, low product costs, high volumes, quick turnovers and large cumulative profits. FMCG distributors are facing some common challenges, such as pressure on margins, inaccuracy of inventory records, error-prone manual processes, lack of traceability and accountability.

The IBIZ FMCG Business Solution, built on Microsoft Dynamics NAV platform, is designed to help small-medium FMCG distributors to step up the effort to achieve operational excellence and organic growth. The end-to-end FMCG-focus vertical solution is the direct result of working with more than 200 FMCG distributors over the past 15 years. The full solution comprises of:

Finance

Sales

Purchasing

Inventory

Warehouse

Delivery

The FMCG Solution has 3 tiers namely FMCG Enterprise, FMCG Professional and FMCG Standard. FMCG Enterprise is the complete end-to-end solution. The solution is capable of, but not limited to, the following functions.
